Pool Update from ERIC DOBIS

Aquatech has completed their work. The CAT 4000 controller is online. It needs calibration. This should take a week or so to complete. The pool's circulation system has excellent flow. Far better than our old setup. This will give us clearer water, lower operating costs and far better chemical control. With improved circulation the pool temperature control should be much better.

Aquatech has requested all final inspections to the County. They have not set final date, but my best guess is this coming week. If the county has no complaints, we can open the pool for use.

No swimming until after final inspection. We will distribute a notice when we can take a dip into our beautiful new pool and surrounding recreation area.

Heartfelt gratitude to the many people who have worked diligently, both behind the scenes, and those on the front lines to accomplish this effort, with a list of APPRECIATION to follow.

VILLA COMMUNITY GARAGE SALE will be held on Saturday, March 1, 8:00 am to noon.

It's not too early to clear out your closets, cupboards, cabinets, dresser drawers, attics and storage areas of clothes, tools, bric-a-brac, kitchen items, furniture, books, toys (?), electric equipment, dvr/records and other hidden treasures to earn some extra cash and pass along your treasures to a new home.

To our returning neighbors from cooler climes, and to our newest neighbors,
a Villa warm welcome. So happy to have you here.
Just as a refresher, some helpful websites to keep in mind.
